VIJAYALAKSHMI KAKANABOINA

St. Louis, MO(Open to Relocation) | | +1(636)525-2521 | Vijayalakshmikakanaboina25@gmail.com | Portfolio

PROFESSIONAL SUMMARY

Business Analyst with hands-on experience in financial services, specializing in requirement gathering, stakeholder management, and data-driven decision making. Skilled in SQL, Power BI, Tableau, and Advanced Excel to perform data analysis, build dashboards, and deliver KPI-driven insights. Experienced in creating BRD and FRD, writing user stories with acceptance criteria, and supporting Agile Scrum delivery using JIRA and Confluence. Proven ability to conduct UAT, perform gap analysis, and implement process improvements that enhance reporting accuracy and operational efficiency while collaborating with cross-functional teams.

TECHNICAL SKILLS

Business Analysis & Requirements: Requirement Gathering, Business Requirements Document (BRD), Functional Requirements Document (FRD), User Stories, Acceptance Criteria, Gap Analysis, Stakeholder Management, Requirements Analysis

Data Analysis & Reporting: SQL, Advanced Excel, Data Analysis, Data Cleaning, Data Validation, Data Visualization, KPI Metrics, Dashboarding

Business Intelligence & Visualization: Power BI, Tableau, Dashboard Development, KPI Reporting, DAX, Power Query

Tools & Process Management: JIRA, Confluence, MS Visio, Process Mapping (BPMN), Workflow Analysis

Agile & Methodologies: Agile, Scrum, Sprint Planning, SDLC

Testing & Validation: User Acceptance Testing (UAT), Test Cases, Defect Tracking

Core Competencies: Process Improvement, Root Cause Analysis, Business Documentation, Cross-Functional Collaboration, Stakeholder Communication

PROFESSIONAL EXPERIENCE

Business Analyst **Aug 2025 - Present**

Northern Trust | USA

- Partnered with investment operations and compliance stakeholders to perform functional requirements analysis and document BRD, FRD, and functional specifications in JIRA and Confluence, maintaining Requirements Traceability Matrix (RTM) and improving stakeholder communication while reducing requirement ambiguity by 30%.
- Translated business requirements into use cases and user stories with acceptance criteria and tracked them in JIRA, improving sprint planning efficiency by 15% within Agile Scrum teams.
- Performed data analysis using SQL and Advanced Excel including data validation and cleaning, identifying reporting gaps that improved data accuracy by 25% and supported audit requirements.
- Developed Power BI dashboards using DAX and Power Query to deliver business insights and support data-driven decision making, reducing manual reporting effort by 40% and improving KPI visibility.
- Conducted process mapping using BPMN in MS Visio and performed gap analysis to drive business process improvement, streamlining workflows and reducing turnaround time by 20%.
- Engaged with product and operations stakeholders to gather and document BRD and FRD in Confluence, improving requirement clarity and reducing revisions by 20% across reporting initiatives.
- Led User Acceptance Testing (UAT) and acceptance testing activities by creating test cases and managing defect tracking, ensuring alignment with requirements and improving release quality.
- Applied root cause analysis and workflow analysis using SQL and Excel to resolve recurring data issues, strengthening reporting reliability and supporting continuous process improvement.

Business Analyst Intern **Aug 2022 - Jul 2023**

VMware | India

- Collaborated with product and operations stakeholders to gather and document BRD and FRD in Confluence, improving requirement clarity and reducing revisions by 20% across reporting initiatives.
- Translated business requirements into user stories with acceptance criteria and tracked them in JIRA, improving sprint planning efficiency by 15% within Agile Scrum teams.

- Performed data analysis using SQL and Advanced Excel to clean and validate datasets, identifying inconsistencies that improved reporting accuracy by 20%.
- Developed Tableau dashboards for KPI tracking and data visualization, reducing manual reporting effort by 30% and improving visibility for stakeholders.
- Supported User Acceptance Testing and acceptance testing by creating test cases and validating outputs against requirements, ensuring alignment with business needs and reducing defects during releases.
- Analyzed workflows using BPMN in MS Visio and collaborated with teams to improve processes, increasing operational efficiency by 15%.

PROJECTS

Customer Behavior Analytics & Retention Strategy

- Analyzed customer transaction and engagement data using SQL and Excel to identify churn patterns and high-risk segments, enabling targeted retention actions that improved customer retention by 18%.
- Built and transformed datasets using Power Query and data modeling techniques in Power BI, improving data consistency and reducing manual data preparation time by 35%.
- Created interactive Power BI dashboards with DAX to track retention KPIs and customer segments, helping stakeholders identify trends and take timely actions on customer engagement.

Sales Performance & KPI Dashboard

- Consolidated sales data from multiple sources using SQL and Power Query to create a unified dataset, improving reporting accuracy and enabling near real-time performance tracking.
- Designed Power BI and Tableau dashboards with KPI metrics such as revenue trends and regional performance, improving reporting efficiency by 40% and reducing manual tracking.
- Enabled business users to drill down into product and region-level insights through interactive visualizations, helping identify underperforming areas and improve decision-making speed.

Business Process Optimization & Workflow Analytics

- Mapped existing workflows using BPMN in MS Visio and analyzed process data in Excel, identifying inefficiencies that improved operational efficiency by 20%.
- Automated recurring reporting tasks using Excel and Power BI dashboards, reducing manual effort by 30% and improving turnaround time for operational reports.
- Developed KPI dashboards to monitor process performance and applied root cause analysis to address delays, enabling consistent tracking and continuous improvement across workflows.

EDUCATION

Master of Science in Information Technology **Aug 2023 - May 2025**
Saint Louis University | USA

Bachelor of Commerce in Computers **Jun 2019 - Apr 2022**
Maris Stella College | India

CERTIFICATIONS

- Google Data Analytics Professional Certificate - **Coursera**
- Microsoft Power BI Data Analyst Professional Certificate - **Coursera**
- Business Analysis & Process Management - **Coursera**
- Agile Business Analysis - **LinkedIn Learning**
- Excel Skills for Business - **Coursera**
